MY MAGAZINE

Two families

► Read and write a sentence under the photos.

Hello! My name is Han and I'm Chinese. I live with my mum and dad on our farm. Both are farmers and my grandparents were farmers, too. I have an older cousin. He lives with us and works on the farm. He is very funny.

We grow rice and lots of vegetables like the cucumbers my cousin is holding in the photo. Rice grows in paddy fields. Can you see the buffalo in the field? Here the farmer is getting the field ready to plant the rice.

Jobs

▶ Look, listen and say.

Our mum is a teacher.

Our dad is an engineer.

Hello, I'm Farah. I live with my family in Baghdad.
My father is a pilot and he flies planes for Iraq Airlines.
My mother is a housewife now, but she was a nurse.

This is my family having lunch. You can see my mum and
dad, my two younger sisters and my big sister. My aunt
is sitting opposite my mum.

Here is a picture in the cockpit of my dad's plane. He and
the co-pilot are getting ready to leave Dubai.

This picture is at the airport in London. You can see my
grandmother, my mother and my aunt with their bags
ready to check in.

Listen to Han and Farah talking about the jobs
their families do.

▶  Listen and say.

What's your dad's job?

What's your mum's job?

He's an engineer.

She's a teacher.

When I grow up

▶ Listen, look and read.

When I grow up, my teacher says I will be an engineer because I am good at Maths and I like designing things.

1

When I grow up, my dad says I will be an artist because I like painting pictures.

When I grow up, my mum says I will be a famous cook because I love cooking and I am good at it.

When I grow up, my mum says I will be a famous cook in a big restaurant because I love cooking and I am good at it.

3

When I grow up, my brother says I will be a doctor because I helped him when he cut his hand with a knife.

Our daily routine

▶  Listen and read about Wisam's family routine.

My family routine

My mum is a nurse and my dad works in an office. He's an IT programmer. He makes computer programs about buildings.

My sister, Dania, and I go to school by bus. We leave home at 7.30. My grandma and grandpa live very near to our house. So, my grandma takes our little brother to school.

My dad drives to work and he takes our mum to the hospital first. They leave home at 6.45 because it takes more than an hour to get to the hospital and then to the office.

My dad works five days a week, but my mum only works three days a week. When she is not working in the hospital, she is a housewife at home. She has two jobs.

FUN FACTS

Wood comes from trees. Some houses are made from wood and so is a lot of furniture. Paper is usually made from wood too.

Rubber comes from a tree called the rubber tree. Car tyres are made from rubber. The rubber in your pencil case isn't made from rubber now, but from something man-made.

Cotton comes from a plant. The English word 'cotton' comes from Arabic. Some money is made from cotton mixed with other materials.

Leather is used for many things such as shoes, boots, jackets and bags. In the past, people used leather for cups, tents, bottles and many other things. Today most leather comes from cows, but it can come from crocodiles, snakes and other animals.

Wool is a very warm and cool material too. Wool keeps its shape and is great for making trousers, sweaters and jackets. Cashmere is a very soft and expensive wool and comes from cashmere goats. These come from many countries, including Iraq.

Hi. I had a bad day yesterday. I went to the park with my team to practise playing volleyball. It was a hot day and we played for five hours. I only had a cup of tea for breakfast. In my backpack, I had a big bag of sweets and a small tin of cola. I was wearing my younger brother's trainers because mine were at school. I was also wearing my new woollen sweater because I like it so much.

At first, I had a headache, but I didn't stop playing. Then I got very hot, but I didn't stop. Then my feet started to hurt. Then I felt very bad and I felt dizzy. This is a picture of how I felt!

My friends carried me home. My mum and dad gave me water to drink and put me to bed with a cold towel on my head. My mum made me some soup. I feel better now, but yesterday was a bad day.

Working in a busy hospital

Many people we know have been to a hospital or to see a doctor. But do you sometimes think about what it is like to work in a hospital? This is a doctor's story.

Tell us about what you do every day.

I'm a doctor. I am a heart doctor (or surgeon). From Sunday to Thursday, I work in a hospital. I wear a uniform – it is a white cotton coat and a thin white or blue headscarf. I look after my patients and I try to make them better. I get up very early because I usually do operations in the mornings. In the afternoons, I visit the wards and check on my patients.

Is your job difficult?

I work with a small team of other doctors and nurses. We are usually very busy. I often work for many hours. Some operations take a long time, perhaps five or six hours. It is a difficult job, but I love it.

1 There are 'word search games'. For example, find the animal names.

2 There are 'memory games' where you match pictures or pictures and words.

3 There are word games about different topics you are interested in: fruit, animals, clothes, ways of travelling and places around the world. There are lots more, too.

4 There are stories to listen to. This is a good way to learn new words.

5 There are songs and rhymes to listen to and to sing.

There are lots more fun games online, but always remember the 6 ways to stay safe.

A computer mouse

A computer mouse is not a real mouse, but it looks a bit like a real mouse and that's how it got its name.

Computer mice are made from plastic. Most mice have two buttons – a left button and a right button. Some mice also have a wheel in the middle for scrolling up and down.

Learning to use a mouse is important because it lets you do many things: navigate the internet, play games and control your computer or laptop. You must hold your mouse correctly. Here's a picture to help you.

You should:

- keep the mouse flat on the desk or table.
- place your hand over the bottom part of the mouse.
- put your thumb on the side of the mouse closest to the computer.
- put your index finger on the left button.
- put your middle finger on the right button.
- put your other fingers on the far side of the mouse.
- keep your wrist straight.

1 Why is it called a mouse?

2 How many buttons do most mice have?

3 What do you use the wheel for?

4 Which finger should you put on the left button?

5 Where should you put your thumb?

Cars

People disagree about who invented the car (or **automobile**), but we can probably say that the key inventor was Mr Benz. He made the first true automobile in 1885–1886.

Here is the first car. Do you think it looks like a bicycle?

Computers

There have been inventions to help **calculation** (+, −, ×, ÷) for thousands of years. In the 11th century, Al-Bairuni, a famous mathematician, made many important calculations.

Many others followed him, but it is Mr Babbage, an engineer, who today we call the 'father of the computer'. However, it was Mrs Lovelace, another mathematician, who saw that computers could do more than just calculate.

This computer was made in about 1985.

Our solar system

There are eight planets in our solar system. They all move around our home star. We call this star the Sun.

Mercury is the closest planet to the Sun and it is the smallest planet in our solar system. The next planet is Venus. It is about the same size as our planet Earth. Venus is the hottest planet with temperatures of 400°C .

The third planet is Earth. It is 150,000,000 km from the Sun. Earth is a special planet because it is the only one that we know has water and life (humans, animals and plants). It is often called the 'blue planet' because there is lots of water.

Mars is smaller than both Earth and Venus. Scientists have sent robots to Mars to take pictures and to bring back soil and rocks.

The other four planets are Jupiter, Saturn, Uranus and Neptune. Jupiter is the biggest planet. It is 2.5 times bigger than all the other planets put together!

► Read the interview Wisam had with his teacher.

Humans have landed on the Moon six times and twelve astronauts have walked on it. Do you think humans will go to Mars?

In the future, I think humans will go to Mars.

Mars is a lot farther from Earth than the Moon. The quickest travel time will take about nine months. Scientists think that there is probably water on Mars.

By 2050, science and technology will be better. We will have faster spaceships.

There will probably be lots of robots to help humans.

Do you think humans will ever go to the farthest planets, Uranus or Neptune?

 Listen and read.

Accidents at home

Most accidents happen in the kitchen, the bathroom or on the stairs.

Who has most accidents?

Children under the age of four years old have the most accidents at home.

Why do children have accidents at home?

Young children do not know about the danger because they have not learnt about the world around them. They see older children and adults doing things and want to copy them. Keep electrical devices away from children.

Types of accidents

Falls

Falls are the most common causes of accidents at home. Everyone should be careful on the stairs.

Burns

Children get burnt because they touch fires or hot things. Young children must not be left in the kitchen by themselves.

Accidents with knives and glass

Sharp knives must be kept away from young children. Glass cups and mugs break very easily and young children can cut themselves.

Other dangers

Keep medicines and home cleaning materials in safe places away from children. They are very dangerous.

Safe riding rules

Follow these safety rules when you ride your bike.

- 1 Before getting on your bicycle, you should check that it is ready to ride. Let's check these five things.

- 2 **Wear a helmet.** If you have an accident, you must protect your head. This is very important.
- 3 **Check your tyres.** Tyres should be hard, not soft.
- 4 **Check your brakes.** Brakes are very important because sometimes you need to stop quickly. You can't stop if your brakes don't work well.

Is your seat the colour you must be able to see from the ground.

Are your handlebars at the right height? Can you see over the handlebars without touching them?

Ride carefully with your books and luggage. Use a basket for carrying things.

Can cars, buses and trucks see you? Wear bright, colourful clothing. Yellow and orange are good.

Look at the road ahead. Watch for potholes, stones, broken glass.

Are they following you? Yes or a cross?

Is my brother's feet don't touch the ground?

Am I going to school with my box in my backpack?

Am I wearing my helmet at my school? Or a cotton cap?

Are the tyres of my bike air-filled before I go to school?

Am I wearing my seat belt off my bike? Can I see the big road?

- 6 Is your seat the correct height? You must be able to put your feet on the ground.

- 6 Are your handlebars the correct height? Can you sit on your bike and touch the handlebars easily?

- 7 Ride carefully with both hands on the handlebars. Carry your books and lunchbox in your backpack. Some bikes have a basket for carrying things.

- 8 Can cars, buses and trucks see you? Wear bright, colourful clothes. Yellow and orange are good colours.

- 9 Look at the road in front of you. Sometimes there are holes, stones, broken glass or other dangerous things on the road.

► Are they following the rules? Read and put a tick (✓) for Yes or a cross (X) for No.

I'm riding my brother's bike. It's his new bike, but it's too big for me and my feet don't touch the ground. ☐

Today, I'm going to school by bike. I'm going to put my books and lunchbox in my backpack. ☐

I left my helmet at my friend's house, but it's OK because I'm going to wear a cotton cap. ☐

The tyres of my bike are too soft. My dad is going to pump them up for me before I go to the park. ☐

Yesterday, I fell off my bike and hurt my arm. I was talking to my friend and I didn't see the big hole in the road. ☐

Subject: Our Mother's Day party

My family is very excited this week because on Saturday we're having a party for Mother's Day and both our grandmas and grandpas are coming.

The party is going to be at our house. We're very busy getting everything ready. I wrote a list of the things we need to do. We want to help our mum and dad. I'm going to help mum to clean the sitting room and Wisam is going to tidy his bedroom.

On Friday, we're all going to go shopping to buy the presents and the party food. We're also going to buy some new clothes.

On Saturday morning, I'm going to help mum to do the cooking. Dad and Wisam are going to put up the decorations. Ammar is going to make cards for mum and for our two grandmas. I think we should help him to do the drawings and make any cut-outs. Dad is going to wrap up the presents and we will help him.

I won't see you this weekend because I'm going to be too busy. I'll see you in school on Sunday and tell you about the party.

- 6 Who is going to wrap up the presents?

- 7 When will Dania see her friend Nadima?

Look at the picture. Read and label the shops.

- 1 There's a watch shop on the first floor next to the pharmacy.
- 2 The best shop for cards and paper is on the first floor next to the jewellery shop.
- 3 There's a big supermarket on the ground floor opposite the frames shop.
- 4 There's a picture frame shop on the ground floor opposite the supermarket.
- 5 Women's fashion is on the ground floor between the picture frame shop and the shoe shop. They sell leather bags and scarves, too.

P for Project

We made a poster about making a Mother's Day card.

Don't forget! It's on 21st March every year.

Our Mother's Day card

Our mum's favourite colours are blue and pink.

First, we folded the card in half.

She likes animals, birds and flowers.

We put flowers around the card to make a border.

We drew two rabbits and two birds in the middle.

We wrote 'Happy Mother's Day' at the top.

We wrote our message inside the card.

We made an envelope.

Some coloured card
can make the
white paper.

I am good at drawing, so I drew the
butterflies. Basim made two birds
with cut-outs. They are very good.

5

We wrote a rhyme for the inside of
the card.
Dear Teacher
You help us every day,
You help us learn,
You help us play,
Thank you on this special day.

6

Basim, read out the
rhyme and I'll write it.

Basim is good at making things and
so he made the envelope by folding
a square piece of paper.

7

Our teacher liked her card and was
very happy on Teacher's Day. All
the class clapped loudly and said
'thank you'.

104 Listen, read and write the answers to the questions.

Teacher's Day

In Iraq, we celebrate Teacher's Day on 1st March. This is a special day and we celebrate it because we want to thank our teachers for everything that they do for us. Here are some ideas.

- You can write a 'Thank you' note or a letter. Your note can be short or long. Both will show your teacher that you are thinking of them on this special day.
- Making a card is another great way to thank your teacher. In my class, we think cards are the best way because you can decorate the card and you can write your own message.

These are three cards that pupils in my class made. Now they need to write 'Happy Teacher's Day' at the top and write their messages inside. This is what some pupils said.

I drew a tree with the sun and grass because in March it is spring. My teacher loves spring.

I drew some flowers and strawberries because strawberries are my teacher's favourite fruit.

I made my card with cut-out boats on the sea because my teacher likes going to the seaside.

- 1 What season is Teacher's Day in?

- 2 Why do we celebrate Teacher's Day?

- 3 Write two good things about making your own card?

- 4 How would you decorate your teacher's card?

When I grow up

Some day, one day when I grow up,
I'll have a job to do.
I'll write a book or be a cook,
Or work in a zoo.

I think I could drive a bus,
Or be a busy nurse.
I'll fly a plane or drive a train,
Or be a doctor and help people again.

I think I could be a teacher,
And help children to read.
Or I could be a farmer,
And grow some vegetable seed.

There are so many jobs I could choose,
But I'm not sure what I'll be.
So now I'll work and learn,
Until it's my turn
To find the best job for me!
